FEATURES OF THE GOOSE-NECK SYSTEM

- All components are made of high grade stainless steel
- The Instrument shaft fits into table accessory clamps such as those used for stirrups & leg holders, as well as other over-the drape clamps with an opening of 5/8".
- The self-retaining joints rotate & twist in every desirable position.
- The complete system, including the sterile clamp may be flash autoclaved.
- The vertical shaft (5/8") may be lowered or raised within the rail clamp for flexible height adjustment.
- Choose BFA-9060-GN with self retaining scope holder or BFA-9061-GN with universal instrument "C" clamp.
